Career Profile

I am capable of providing a leading-edge service that will enhance the organization's goals and objectives where challenges could be translated to success. I am seeking an opportunity in the field where my education and abilities would be advantageous to the growth of the organization, its members and myself.

Key Professional Skills

- I'm Proficient in website designing and development, with necessary skills in HTML, CSS and JAVASCRIPT programming languages.
- Computer literate with ability to handle Microsoft Office, Excel, and PowerPoints
- Creative, Strategic thinker with excellent communication skills.
- Good time-management skill with the ability to lead and follow

Personality Traits

- A man of integrity who believes in honesty.
- A passionate developer who loves his work
- A web functionalities enthusiast who is eager to learn more and share with others
- A calm individual who is able to thrive under pressure and deliver the expected.

- A motivated and self-driven person able to network with others to work as a team.
- Well-groomed and disciplined every time.

Professional Experience

- Self-Industrial attachment and Internship at home. I have managed to create over 10 fully responsive websites that are perfectly designed. My task was:
 - Creating websites using programming languages
 - Troubleshooting for any bugs
 - Beautifying the stylings
 - Uploading websites to GitHub

Interests/Hobbies

- ✓ Coding
- ✓ Reading
- ✓ Engaging in charity work.
